DENTAL EXAMS

EFFECTIVE JANUARY 2019, all 9th grade students must present proof of having been examined by a licensed dentist before May 15 of the current school year. Failure to present proof allows the school to hold the student's report card until the student presents: 1) a completed dental examination, or 2) a completed Dental Examination Waiver form, or 3) that a dental examination will take place within 60 days after May 15.

EXEMPTIONS

A student will be exempted from the above requirements for:

COMMUNICATION OF HEALTH INFORMATION

Health information gathered through screening registration forms, physical exams, oral/written communication by a health care provider or parent/guardian may be shared by the nurse with those individuals (i.e. teachers or other school personnel) who have an educational interest in enhancing the health and safety of the student. This information may be shared via written or electronic communication or by direct personal contact. If you do not wish this information to be shared, please send a written request to the school office by the end of the first week of attendance.

STUDENT MEDICATION

Students should not take medication during school hours or during school-related activities unless it is absolutely necessary for a student's health and well-being. When a student's licensed health care provider and parent/guardian believe that it is absolutely necessary for the student to take a medication during school hours or school-related activities, the parent/guardian must request that the school dispense the medication to the child and otherwise follow the District's procedures on dispensing medication. If additional information or assurances are needed, the Registered Nurse has the professional responsibility to consult with the prescriber to clarify information in the order. The administration and/or Registered Nurse, in consultation with the student's health care provider, shall retain the right to decline to allow a medication to be administered by school staff.

No School District employee shall administer to any student, or supervise a student's self-administration of, any prescription or non-prescription medication until a completed and signed "School Medication Authorization Form" (SMA Form) is submitted by the student's parent/guardian. No School District employee should administer or supervise a student's self-administration of any prescription or non-prescription medication if it is the first time the student has had this dosage of the medication. No student shall possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in this policy and its implementing procedures.

Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication.

SELF-ADMINISTRATION OF MEDICATION

A student may possess and self-administer an epinephrine injector (e.g., EpiPen®) and/or an asthma inhaler or medication prescribed for use at the student's discretion, provided the student's parent/guardian has completed and signed a School Medication Authorization Form.

The school district shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication, including asthma medication or epinephrine injectors, or medication required under a qualifying plan. A student's parent/guardian must indemnify and hold harmless the school district and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine injector, asthma medication, and/or a medication required under a qualifying plan.

Students may self-administer (but not possess on their person) other medications required under a qualified plan, provided the student's parent/guardian has completed and signed a School Medication Authorization Form.

Students who are diabetic may possess and self-administer diabetic testing supplies and insulin if authorized by the student's diabetes care plan, which must be on file with the school.

Illinois Public Act 099-0843 requires schools to request an Asthma Action Plan (AAP) form parents of students with asthma. The asthma action plan must be written by a doctor, kept on file in the office of the School Nurse, and be updated annually. Students with asthma may possess and self-administer supplies, equipment, and medication, if authorized by the student's asthma action plan, which must be on file with the school.

Students with epilepsy may possess and self-administer supplies, equipment and medication, if authorized by the student's seizure action plan, which must be on file with the school.

Emergency Aid to Students

Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication.

Administration of Medical Cannabis

The Compassionate Use of Medical Cannabis Pilot Program Act allows a *medical cannabis infused product* to be administered to a student by one or more of the following individuals:

1. A parent/guardian of a student who is a minor to register with the Ill. Dept. of Public Health (IDPH) as a *designated caregiver* to administer medical cannabis to their child. A designated caregiver may also be another individual other than the student's parent/guardian. Any designated caregiver must be at least 21 years old and is allowed to administer a *medical cannabis infused product* to a child who is a student on the premises of his or her school or on his or her school bus if:
 - a) Both the student and the designated caregiver possess valid registry identification cards issued by IDPH;
 - b) Copies of the registry identification cards are provided to the District; and
 - c) That student's parent/guardian completed, signed, and submitted a *School Medication Authorization Form - Medical Cannabis*; and
 - d) After administering the product to the student, the designated caregiver immediately removes it from school premises or the school bus.
2. A properly trained school nurse or administrator, who shall be allowed to administer the *medical cannabis infused product* to the student on the premises of the child's school, at a school-sponsored activity, or before/after normal school activities, including while the student is in before-school or after-school care on school-operated property or while being transported on a school bus.
3. The student him or herself when the self-administration takes place under the direct supervision of a school nurse or administrator.

Medical cannabis infused product (product) includes oils, ointments, foods, and other products that contain usable cannabis but are not smoked or vaped. Smoking and/or vaping medical cannabis is prohibited.

The product may not be administered in a manner that, in the opinion of the District or school, would create a disruption to the educational environment or cause exposure of the product to other students. A school employee shall not be required to administer the product.

Discipline of a student for being administered a product by a designated caregiver, or by a school nurse or administrator, or who self-administers a product under the direct supervision of a school nurse or administrator pursuant to this policy is prohibited. The District may not deny a student attendance at a school solely because he or she requires administration of the product during school hours.

Undesignated Medications

The school may maintain the following undesignated prescription medications for emergency use: (1) Asthma medication; (2) Epinephrine injectors; (3) Opioid antagonists; and (4) Glucagon. No one, including without limitation, parents/guardians of students, should rely on the school or district for the availability of undesignated medication. This procedure does not guarantee the availability of undesignated medications. Students and their parents/guardians should consult their own physician regarding these medication(s).

CHRONIC ILLNESS

Rantoul Township High School is committed and dedicated to ensuring the safety and well-being of all our students by identifying those students with chronic health conditions. Those students with chronic illness will have access to the same education as those students without disabilities. Chronic health conditions shall include those with "nut allergies" and/or other food allergies, asthma/allergies, diabetes, seizures, muscular/skeletal disorders, bowel and/or bladder, and including but not limited to other chronic diseases. If their condition requires them to have special instruction for them to benefit educationally or to ensure their health and safety while in school, they will be eligible for accommodation/modifications/interventions of the regular classroom, curriculum, or activity as instructed per their Primary Health Care Provider.

All information regarding student identification, healthcare management, and emergency care shall be safeguarded as personally identifiable information and will be shared on a need to know basis in the coordination of the student's medical and health care management by the school staff.

An Individualized Action Care Plan will be developed specific to the student's condition and in coordination with the instructions provided by the Primary Care Provider.

The development of the Individualized Care Plan is in accordance with specific protocols to:

1. Prevent exposure/episodic reactions
2. Awareness and training for school staff on acute and routine management of the student's chronic health condition, information on signs and symptoms of the student's chronic health condition, medication and administration if needed
3. Emergency protocol for dealing with reactions should they occur.

FOOD ALLERGIES

State law requires our school district to annually inform parents of students with life-threatening allergies or life-threatening chronic illnesses of the applicable provisions of Section 504 of the Rehabilitation Act of 1973 and other applicable federal statutes, state statutes, federal regulations and state rules. If your student has a life-threatening allergy or life-threatening chronic illness, please notify the principal at (217) 892-2151.

Federal law protects students from discrimination due to a disability that substantially limits a major life activity. If your student has a qualifying disability, an individualized Section 504 Plan will be developed and implemented to provide the needed supports so that your student can access his or her education as effectively as students without disabilities. Not all students with life-threatening allergies and chronic illnesses may be eligible under Section 504. Our school district also may be able to appropriately meet a student's needs through other means.

(Board Policy 314)

CARE OF STUDENTS WITH DIABETES

If your child has diabetes and requires assistance with managing this condition while at school and school functions, a Diabetes Care Plan must be submitted to the school principal.

Parent/guardians are responsible for and must:

1. Inform the school in a timely manner of any changes which needs to be made to the Diabetes Care Plan on file with the school for their child.
2. Inform the school in a timely manner of any changes to their emergency contact numbers or contact numbers of health care providers.
3. Sign the Diabetes Care Plan, Delegated Care Aide Consent, and Glucagon Authorization Form.
4. Sign Protected Health Information Form (PHI) to consent for designated School District representatives to communicate directly with the health care provider whose instructions are included in the Diabetes Care Plan.

For further information, please contact the school principal at (217) 892-2151.

ACCOMMODATING BREASTFEEDING STUDENTS

Students who choose to breastfeed an infant after returning to school are provided reasonable accommodations. A student who is a nursing mother may take reasonable breaks during the school day to express breast milk or breastfeed her infant. Reasonable accommodations include, but are not limited to:

1. Access to a private and secure room, other than a bathroom, to express breast milk or breastfeed an infant.
2. Permission to bring onto school campus a breast pump or other equipment used to express breast milk.
3. Access to a power source for a breast pump or any other equipment used to express breast milk.
4. Access to a place to store expressed breast milk safely.
5. Reasonable breaks to accommodate the student's need to express breast milk or breastfeed an infant child.
6. The opportunity to make up work missed due to the student's use of reasonable accommodations for breastfeeding.

Complaints regarding violations of this procedure should be made to the District's Complaint Manager or Non-Discrimination Coordinator.

HOME AND HOSPITAL INSTRUCTION

A student whose Illinois health care provider (MD, DO, APRN, PA) determines that he or she will, or is anticipated to be, absent from school for a minimum of 10 days due to a medical condition may be eligible for instruction in the student's home or hospital.

The parent and the student's health care provider (MD, OD, APRN, PA) must fill out the **Medical Certification for Home/Hospital Instruction** form. This form may be obtained from the nurse's office.

Appropriate educational services from qualified staff will begin no later than five school days after receiving a written statement from a physician, physician assistant, or licensed advanced practice registered nurse. Instructional or related services for a student receiving special education services will be determined by the student's individualized education program.

A student who is unable to attend school because of pregnancy will be provided home instruction, correspondence courses, or other courses of instruction before (1) the birth of the child when the student's health care provider (MD, DO, APRN, PA) indicates that she is medically unable to attend regular classroom instruction, and (2) for up to 3 months after the child's birth or a miscarriage.

For information on home or hospital instruction, contact: Mr. Todd Wilson, Principal at 217-892-6160.

VISION SCREENING

During the school year, the nurse will administer a hearing and vision screening to new students to the district (transferred in from another Illinois school) and students with an IEP as mandated. Vision screenings are not required if an eye examination signed by an optometrist or ophthalmologist within the last 12 months is on file with the school. Vision screening is not a substitute for a complete eye and vision evaluation by an eye doctor. Vision screening is not an option. If a vision examination report is not on file at the school for your child, your child in the above mandated groups will be screened. Parents will be notified if the screenings indicate a student should receive a more extensive examination by a physician. This entry in the student handbook constitutes notice to parents and guardians of students in the grades/groups mandated for vision and hearing screenings. (Illinois School Code 27-8.1)

INJURY AT SCHOOL

The Nurse's Office is located on first floor East Wing, Room 111. If a student becomes ill or injured, he/she should report to the Nurse's Office with a Hall Pass. The nurse will decide whether the student should remain in school or be sent home. If the nurse is unavailable, the main office staff will assist the student. A student who becomes ill during school should never spend the period alone in the restroom.

Procedure

1. If you become ill or injured during the school day, report to the Nurse's Office with a Hall Pass from the class you are in or will be missing. Do not come in between classes without a Hall Pass.
2. Sign in and out of the Nurse's Office on the sign-in sheet located in the waiting area.
3. If it is necessary for you to be excused from school, the nurse will contact your parent/guardian. Do not call/text your parent/guardian before reporting to the nurse.
4. No treatment except first aid will be given by the nurse. If additional treatment is required, the nurse will contact parent/guardian to make appropriate arrangements.
5. If the nurse is not available, you are to report directly to the Main Office.
6. All student must sign out in the Main Office before leaving the building.

Remember: It is necessary for office personnel to know where to reach parents at all times either at home or at work. Please contact the school office if any changes occur in your emergency information during the school year.

COMMUNICABLE DISEASES

It is the parent/guardian's responsibility to keep children home when they are ill. If your child has any of the following signs or symptoms, please do not send them to school.

- Red or mattering eyes
- Temperature/fever of 100.0 degrees within the last 24 hours
- Nausea, Vomiting, or Diarrhea within the last 24 hours
- Sore throat
- Swelling around the neck/swollen glands
- Excessive sneezing/coughing
- Earache or drainage from ear
- Dizziness/faintness
- Skin rash/lesion
- Severe pain
- Head lice

Any student who becomes ill or is injured at school must be picked up by a parent/guardian or designated adult unless the school office receives specific instructions from the parent/guardian to do otherwise with the student.

The school will observe recommendations of the Illinois Department of Public Health regarding communicable diseases.

1. Parents are required to notify the school nurse if they suspect their child has a communicable disease.
2. In certain cases, students with a communicable disease may be excluded from school or sent home from school following notification of the parent or guardian.
3. A student excluded because of a communicable disease will be permitted to return to school only when the parent or guardian brings to the school a letter from the student's doctor stating that the student is no longer contagious or at risk of spreading the communicable disease.

The requirements for readmission to school after a contagious disease are listed below. These requirements are subject to change by the State Department of Public Health. If you have questions concerning these or other requirements, you may contact the school nurse through the school.

1. **Fever:** A child should not be sent to school if s/he has an oral temperature of 100 degrees or greater. S/he may return to school when the fever has ceased for 24 hours without the use of Acetaminophen or under the care of a doctor.
2. **Pink Eye:** Students may return to school 24 hours after treatment begins or written approval for readmission to school by physician.
3. **Strep Infection or Scarlet Fever:** May attend 24 hours after antibiotic treatment and fever is absent.
4. **Head Lice:** When a student is identified with head lice, the student is required to follow the treatment instruction.
5. **Ringworm:** May attend 24 hours after treatment begins, unless lesion can be covered.
6. **Rashes:** May require a diagnosis with possible exclusion.
7. **Impetigo:** May attend 24 hours after treatment begins.
8. **Mumps:** Excluded 9 days and until all swelling is gone.
9. **Chicken Pox:** Excluded 8 days after eruption.
10. **Scabies:** May attend after the first scabicide treatment.
11. **Rubella or 3-day measles:** May attend after 7 days after onset of rash. Local school policies may exclude suspects or cases without a physician release.
12. **Whooping Cough:** May attend school 5 days after the start of antibiotic therapy.

HEAD LICE

CHECK REGULARLY-TREAT QUICKLY

Returning to school is a good time to think about checking your child regularly for lice. Unfortunately, cases of head lice may occur in spite of all precautions we take as a school district to prevent an infestation. Fortunately, head lice do not pass any disease or illness. They are not a health hazard but are a social problem and a frustrating nuisance. Head lice can affect children and adults of all socio-economic levels.

If you notice lice in your child's hair, you must report your findings to the school immediately. Your child will need the minimum of one treatment and no live lice present before he/she returns to school. Please begin treatment as soon as possible.

When a case of live lice is identified during the school day, the student's parent will be notified by phone. Parents will have the opportunity to take their child home to start appropriate treatment. Information on lice and treatment options will be sent home with the student. The student may return to school at any point in time following treatment, including same day return. Prior to re-entering the school, the nurse or designated school personnel will reassess the student to determine if they are free of any live lice.

We will do our best to maintain confidentiality in all cases. We also encourage parents to call the school with any questions or concerns.

SCHOOL OPERATIONS DURING A PANDEMIC OR OTHER HEALTH EMERGENCY

A pandemic is a global outbreak of disease. Pandemics happen when a new virus emerges to infect individuals and, because there is little to no pre-existing immunity against the new virus, it spreads sustainably. Your child's school and district play an essential role, along with the local health department and emergency management agencies, in protecting the public's health and safety during a pandemic or other health emergency.

During a pandemic or other health emergency, you will be notified in a timely manner of all changes to the school environment and schedule that impact your child. Please be assured that even if school is not physically in session, it is the goal of the school and district to provide your child with the best educational opportunities possible.

Additionally, please note the following:

1. All decisions regarding changes to the school environment and schedule, including a possible interruption of in-person learning, will be made by the superintendent in consultation with and, if necessary, at the direction of the Governor, Illinois Department of Public Health, local health department, emergency management agencies, and/or Regional Office of Education.
2. Available learning opportunities may include remote and/or blended learning. Blended learning may require your child to attend school on a modified schedule.
3. Students will be expected to participate in blended and remote instruction as required by the school and district. Parents are responsible for assuring the participation of their child. Students who do not participate in blended or remote learning will be considered truant.
4. All school disciplinary rules remain in effect during the interruption of in-person learning. Students are subject to discipline for disrupting the remote learning environment to the same extent that discipline would be imposed for disruption of the traditional classroom.
5. Students and parents will be required to observe all public health and safety measures implemented by the school and district in conjunction with state and local requirements.
6. During a pandemic or other health emergency, the school and district will ensure that educational opportunities are available to all students.
7. School personnel will work closely with students with disabilities and other vulnerable student populations to minimize the impact of any educational disruption.
8. Students who have a compromised immune system, live with an individual with a compromised immune system, or have a medical condition that may impact their ability to attend school during a pandemic or other public health emergency should contact school officials.
9. During a pandemic or other health emergency, teachers and school staff will receive additional training on health and safety measures.
10. In accordance with school district or state mandates, the school may need to conduct a daily health assessment of your child. Parents and students will be notified of the exact assessment procedures if this becomes necessary.
11. Parents should not send their child to school if their child exhibits any symptoms consistent with the pandemic or other health emergency.
12. Please do not hesitate to contact school or district officials if you have any concerns regarding your child's education, health or safety.

SECTION 4 ACADEMIC INFORMATION

FINES, FEES, AND CHARGES; WAIVER OF STUDENT FEES

The school establishes fees and charges to fund certain school activities. Some students may be unable to pay these fees. Students will not be denied educational services or academic credit due to the inability of their parent or guardian to pay fees or certain charges. Students whose parent or guardian is unable to afford student fees may receive a fee waiver. A fee waiver does not exempt a student from charges for lost and damaged books, locks, materials, supplies, and/or equipment.

Applications for fee waivers may be submitted by a parent or guardian of a student who has been assessed a fee. As student is eligible for a fee waiver if at least one of the following prerequisites is met:

1. The student currently lives in a household that meets the free lunch or breakfast eligibility guidelines established by the federal government pursuant to the National School Lunch Act; or
2. The student or the student's family is currently receiving aid under Article IV of the Illinois Public Aid Code (Aid to Families of Dependent Children).

The building principal will give additional consideration where one or more of the following factors are present:

- An illness in the family;
- Unusual expenses such as fire, flood, storm damage, etc.;
- Unemployment;
- Emergency situations; or
- When one or more of the parents/guardians are involved in a work stoppage.

The building principal will notify the parent/guardian promptly as to whether the fee waiver request has been granted or denied. Questions regarding the fee waiver application process should be addressed to the building principal.

Pursuant to the Hunger-Free Students' Bill of Rights Act, the school is required to provide a federally reimbursable meal or snack to a student who requests one, regardless of whether the student has the ability to pay for the meal or snack or owes money for earlier meals or snacks. Students may not be provided with an alternative meal or snack and the school is prohibited from publicly identifying or stigmatizing a student who cannot pay for or owes money for a meal or snack.¹

STUDENT RECORDS

A school student record is any writing or other recorded information concerning a student and by which a student may be identified individually that is maintained by a school or at its direction or by a school employee, regardless of how or where the information is stored, except for certain records kept in a staff member's sole possession; records maintained by law enforcement officers working in the school; video and other electronic recordings (including electronic recordings made on school busses) that are created in part for law enforcement, security, or safety reasons or purposes, though such electronic recordings may become a student record if the content is used for disciplinary or special education purposes regarding a particular student.

The Family Educational Rights and Privacy Act (FERPA) and the Illinois Student Records Act afford parents/guardians and students over 18 years of age ("eligible students") certain rights with respect to the student's school records. They are:

1. The right to inspect and copy the student's education records within 10 business days of the day the District receives a request for access.

The degree of access a student has to his or her records depends on the student's age. Students less than 18 years of age have the right to inspect and copy only their permanent record. Students 18 years of age or older have access and copy rights to both permanent and temporary records. A parent/guardian or student should submit to the building principal a written request that identifies the record(s) he or she wishes to inspect. Within 10 business days, the building principal will make arrangements for access and notify the parent/guardian or student of the time and place where the records may be inspected. In certain circumstances, the District may request an additional 5 business days in which to grant access. The District charges \$.35 per page for copying but no one will be denied their right to copies of their records for inability to pay this cost.

These rights are denied to any person against whom an order of protection has been entered concerning the student.

2. The right to request removal from the student's academic transcript one or more scores received on college entrance examinations.

A parent/guardian or eligible student may ask the District to remove certain scores of college entrance exams from their student's academic transcript. This includes the State assessment that includes a college and career readiness determination. Students often take college entrance examinations multiple times in order to improve their results. Test publishers provide the results from each examination taken to the student's high school. Schools must include each of these scores on the student's transcript, which may result in academic transcripts having multiple scores from a single college entrance exam. A parent/guardian or eligible student may not want certain scores to be sent to postsecondary institutions to which the student applies. To request the removal of these scores from a student's academic transcript, the parent/guardian or eligible student must submit a written request to the building principal.

¹ The Hunger-Free Students' Bill of Rights Act applies to all schools that participate in the United States Department of Agriculture child nutrition program.

3. The right to request the amendment of the student's education records that the parent/guardian or eligible student believes are inaccurate, irrelevant, or improper.

A parent/guardian or eligible student may ask the District to amend a record that is believed to be inaccurate, irrelevant, or improper. Requests should be sent to the building principal and should clearly identify the record the parent/guardian or eligible student wants changed and the specific reason a change is being sought.

If the District decides not to amend the record, the District will notify the parent/guardian or eligible student of the decision and advise him or her of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent/guardian or eligible student when notified of the right to a hearing.

4. The right to permit disclosure of personally identifiable information contained in the student's education records, except to the extent that the FERPA or Illinois School Student Records Act authorizes disclosure without consent.

Disclosure without consent is permitted to school officials with legitimate educational or administrative interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board. A school official may also include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of personally identifiable information from education records (such as an attorney, auditor, medical consultant, therapist, or educational technology vendor); or any parent/guardian or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility or contractual obligation with the district.

Upon request, the District discloses education records without consent to officials of another school district in which a student has enrolled or intends to enroll, as well as to any person as specifically required by State or federal law. Before information is released to these individuals, the parents/guardians or eligible student will receive prior written notice of the nature and substance of the information, and an opportunity to inspect, copy, and challenge such records.

Academic grades and references to expulsions or out-of-school suspensions cannot be challenged at the time a student's records are being forwarded to another school to which the student is transferring.

Disclosure is also permitted without consent to: any person for research, statistical reporting or planning, provided that no student or parent/guardian can be identified; to another school district that overlaps attendance boundaries with the District, if the District has entered into an intergovernmental agreement that allows for sharing of student records and information with the other district,² any person named in a court order; appropriate persons if the knowledge of such information is necessary to protect the health or safety of the student or other persons; and juvenile authorities when necessary for the discharge of their official duties who request information before adjudication of the student.

5. The right to a copy of any school student record proposed to be destroyed or deleted.

The permanent record is maintained for at least 60 years after the student transfers, graduates, or permanently withdraws. The temporary record is maintained for at least 5 years after the student transfers, graduates, or permanently withdraws. Temporary records that may be of assistance to a student with a disability who graduates or permanently withdraws, may, after 5 years, be transferred to the parent/guardian or to the student, if the student has succeeded to the rights of the parent/guardian. Student temporary records are reviewed every 4 years or upon a student's change in attendance centers, whichever occurs first.

6. The right to prohibit the release of directory information.

Throughout the school year, the District may release directory information regarding students, limited to:

- Name
- Address
- Grade level
- Birth date and place

² For elementary and high school districts only.

- Parent/guardian names, addresses, electronic mail addresses, and telephone numbers
- Photographs, videos, or digital images used for informational or news-related purposes (whether by a media outlet or by the school) of a student participating in school or school-sponsored activities, organizations, and athletics that have appeared in school publications, such as yearbooks, newspapers, or sporting or fine arts programs
- Academic awards, degrees, and honors
- Information in relation to school-sponsored activities, organizations, and athletics
- Major field of study
- Period of attendance in school

Any parent/guardian or eligible student may prohibit the release of any or all of the above information by delivering a written objection to the building principal within 30 days of the date of this notice.

7. The right to request that military recruiters or institutions of higher learning not be granted access to your student's information without your prior written consent.

Federal law requires a secondary school to grant military recruiters and institutions of higher learning, upon their request, access to secondary school students' names, addresses, and telephone numbers, unless the student's parent/guardian, or student who is 18 years of age or older, submits a written request that the information not be released without the prior written consent of the parent/guardian or eligible student. If you wish to exercise this option, notify the building principal.

8. The right contained in this statement: No person may condition the granting or withholding of any right, privilege or benefits or make as a condition of employment, credit, or insurance the securing by any individual of any information from a student's temporary record which such individual may obtain through the exercise of any right secured under State law.

9. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA.

The name and address of the Office that administers FERPA is:

U.S. Department of Education
 Student Privacy Policy Office
 400 Maryland Avenue, SW
 Washington DC 20202-8520

STUDENT TEXTBOOKS AND SUPPLIES

Textbooks are furnished to the students for a rental fee. This is to be paid on the day of registration. Students will secure their books from each of their teachers on the first day of class. A complete list of student fees is available on the RTHS website (www.rths193.org) or at the main office upon request. Students who damage or lose textbooks will be required to pay an additional fee for the lost or damaged books. Workbooks and newspaper subscriptions are required in some courses. Students may purchase required workbooks at an additional cost in the Main Office. Certain fees may be waived for students eligible for free or reduced lunch purchases. Contact the Main Office for the necessary forms to qualify for waivers. Students will not be able to take final exams until they have turned in their textbook to the course instructor.

EDUCATION OF CHILDREN WITH DISABILITIES

It is the intent of the district to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act are identified, evaluated and provided with appropriate educational services.

The School provides a free appropriate public education in the least restrictive environment and necessary related services to all children with disabilities enrolled in the school. The term "children with disabilities" means children between ages 3 and the day before their 22nd birthday for whom it is determined that special education services are needed, except those children with disabilities who turn 22 years of age during the school year are eligible for special education services through the end of the school year. It is the intent of the school to ensure that students with disabilities are identified, evaluated, and provided with appropriate educational services.

A copy of the publication "Explanation of Procedural Safeguards Available to Parents of Students with Disabilities" may be obtained from the school district office.

Educational opportunities within our curriculum are available to all students without regard to race, color, national origin, sex or handicapping condition. All students, however, must meet the required prerequisites for each course level they wish to schedule. The Superintendent is the District Coordinator whom you may contact concerning any questions relative to compliance with TITLE IX and Ms. Sandy Davis is the District Coordinator whom you may contact concerning any questions relative to compliance with Section 504 of the REHABILITATION ACT OF 1973.

ACCOMMODATING INDIVIDUALS WITH DISABILITIES

Individuals with disabilities will be provided an opportunity to participate in all school-sponsored services, programs, or activities. Individuals with disabilities should notify the superintendent or building principal if they have a disability that will require special assistance or services and, if so, what services are required. This notification should occur as far in advance as possible of the school-sponsored function, program, or meeting.

RELATED SERVICE LOGS

For a child with an individualized education program (IEP), the school district must create related service logs that record the type of related services administered under the child's IEP and the minutes of each type of related service that has been administered. The school will provide a child's parent/guardian a copy of the related service log at the annual review of the child's IEP and at any other time upon request.

EPSDT MEDICAID PROVIDER NOTICE

This is to inform you that your school district, Rantoul Township High School is an EPSDT Medicaid Provider with Illinois' State Medicaid Agency, Healthcare and Family Services (HES). EPSDT (Early Periodic Screening, Diagnosis and Treatment) is a federal mandate on the States to provide early intervention / prevention services to children, age birth through 18. The services are allied health care services provided by the district's pupil personnel or by allied professionals under contract with the district. As an EPSDT Medicaid Provider, the District is entitled to collect federal Medicaid funds to share in the cost of providing health care services to the children enrolled in the school district.

The allied health care service practitioners include school nurses, speech therapists, psychologists, social workers, physical and occupational therapists, personal health aides, counselors, hearing and vision screeners and special transportation services. These services may be provided to students per his/her IEP (Individual Education Plan) or to students within the standard education program. Both the State and Federal governments mandate the school district provide the above referenced health care services to students based upon screenings / assessments that are completed. The Medicaid claims are filed and processed per the district's contract with a billing service agency and the reimbursement funds received are used to meet the cost of providing these health care services.

The health care services listed on a student's IEP are provided with parental consent and at "no cost" to the parents. This "no cost" provision is in compliance with Public Law 94-142 - "Education of the Handicapped Free and Appropriate Public Education", IDEA - "Individual Disabilities Education Act", PUBLIC Law 100-360 and State of Illinois - State Board of Education mandates. The District, an EPSDT Medicaid Provider, is eligible to claim federal Medicaid funds for the health care services provided to students enrolled in Illinois' Medicaid - All Kids Program.

Medicaid is a governmentally funded program by the State of Illinois and the Federal Government. The Medicaid coverage has no lifetime cap on benefits and does not contain any pre-existing condition clauses or limitations. Eligibility to participate in the State's Medicaid program is based upon a family's income, absence of health insurance or limited coverage per a private health insurance plan. In addition, The District, as an EPSDT Medicaid Provider, serves as an administrative agent for HFS with the responsibility to encourage parents to explore the benefits of Medicaid coverage for their children.

Please go to the HFS Web Site for more information on Medicaid and its Benefits: www2.illinois.gov/hfs/Pages/default.aspx

Please contact Tanya Turner at 217-892-6126 if you have any questions concerning this School District Policy Information.

MEDICAID AND INSURANCE: PARENT CONSENT/STUDENT RECORDS

A school district may use Medicaid payments to assist in paying for the services a special education student receives. To receive Medicaid funding, the school district does not need parent consent provided that the parents are:

- informed that such information is being released by the school, and
- given the opportunity to request the information not be released.

The information the school district provides to the Illinois Department of Healthcare and Family Services ("IHFS") is subject to the Illinois School Student Records Act. This information includes the child's name, the types of services provided, and the dates of services. Such information is the type of directory information that the school may release without parent consent. Notification of the school district's intent to access Medicaid may be included in the district's directory policy information (such as a parent handbook) or they may send parents a letter. The school district must assure that the information provided to the IHFS is covered by the directory information notice given to parents. The district must have written consent from parents in order to use their private insurance.

Services required by an IEP must be provided at no cost to the child's parents, whether they have public or private insurance. Parents shall be notified that the use of their private insurance proceeds to pay for services is voluntary. In the case of a child who is dually insured (through private insurance and Medicaid), a family shall not be required to draw upon private insurance whose use is a prerequisite to billing Medicaid if that use of insurance will result in financial costs to the family.

SERVICE ANIMALS

Service animals such as guide dogs, signal dogs or any other animal individually trained to perform tasks for the benefit of a student with a disability shall be permitted to accompany that student to all school functions, whether in or outside the classroom.

EXEMPTION FROM PHYSICAL EDUCATION REQUIREMENT

In order to be excused from participation in physical education, a student must present an appropriate excuse from his or her parent/guardian or from a person licensed under the Medical Practice Act. The excuse may be based on medical or religious prohibitions. An excuse because of medical reasons must include a signed statement from a person licensed under the Medical Practice Act that corroborates the medical reason for the request. An excuse based on religious reasons must include a signed statement from a member of the clergy that corroborates the religious reason for the request. Upon written notice from a student's parent/guardian, a student will be excused from engaging in the physical activity components of physical education during a period of religious fasting.

A student who is eligible for special education may be excused from physical education courses in either of the following situations:

1. He or she (a) is in grades 3-12, (b) his or her IEP requires that special education support and services be provided during physical education time, and (c) the parent/guardian agrees or the IEP team makes the determination; or
2. He or she (a) has an IEP, (b) is participating in an adaptive athletic program outside of the school setting, and (c) the parent/guardian documents the student's participation as required by the Superintendent or designee.

A student requiring adapted physical education will receive that service in accordance with the student's Individualized Education Program.

Special activities in physical education will be provided for a student whose physical or emotional condition, as determined by a person licensed under the Medical Practices Act, prevents his or her participation in the physical education course.

State law prohibits the School District from honoring parental excuses based upon a student's participation in athletic training, activities, or competitions conducted outside the auspices of the School District.

DISCIPLINE OF STUDENTS WITH DISABILITIES

Behavioral Interventions

Behavioral interventions shall be used with students with disabilities to promote and strengthen desirable behaviors and reduce identified inappropriate behaviors. The School Board will establish and maintain a committee to develop, implement, and monitor procedures on the use of behavioral interventions for children with disabilities.

Discipline of Special Education Students

The District shall comply with the Individuals With Disabilities Education Improvement Act of 2004 and the Illinois State Board of Education's *Special Education* rules when disciplining special education students. No special education student shall be expelled if the student's particular act of gross disobedience or misconduct is a manifestation of his or her disability.

RTI (RESPONSE TO INTERVENTION)

RtI is a required program for all schools receiving state/federal funds in Illinois. RtI provides students with high quality classroom instruction as well as interventions to meet the needs of all learners. In order to implement RtI effectively student data such as assessment results, grades, attendance, and discipline are reviewed frequently. Teams of school personnel will meet regularly to discuss progress and determine which students will participate in intervention groups.

All students will participate in the core academic and behavior curriculum known as "Tier 1." Many students will also receive supplemental services (tier 2). This means they will spend more time learning a particular skill through specific interventions and accommodations. Tier 2 instruction may be provided by the classroom teacher or a support staff member (school psychologist, social worker, speech therapist, teacher assistant, etc...). Because students will move in and out of groups as they master skills parental permission to participate in groups will not be obtained.

Students who continue to struggle will also receive intensive services (tier 3). This means your child will receive additional small group instruction and interventions targeted to his/her needs. Again, many different school personnel may provide this intervention, including special education personnel.

If your child requires tier 3 interventions, you may be invited to come to a meeting to discuss your child's educational needs. Students who continue to require tier 3 intervention for an extended period of time may be entitled to special education services with parental permission. If a parent requests an evaluation for special education, a meeting will be held to discuss the request. However, a student may not be entitled to special education if they have not received tier 3 intensive intervention.

Students with disabilities who do not qualify for an individualized education program (IEP), as required by the federal Individuals with Disabilities Education Act and the Illinois School Code, may qualify for services under Section 504 of the federal Rehabilitation Act of 1973 if the child (i) has a physical or mental impairment that substantially limits one or more major life activities, (ii) has a record of a physical or mental impairment, or (iii) is regarded as having a physical or mental impairment.

Inquiries regarding the identification, assessment and placement of such children should be directed to:

REMOTE LEARNING PROGRAM

The RTHS Remote Learning Program is designed to accommodate students who are at an increased risk of severe illness, who have special health care needs, or who live with people at increased risk. This program is also available on a limited basis, to students and families who feel remote learning is a better option than in-person instruction. Students who elect to participate in remote learning will only be accepted if space allows. Remote learning will run in quarters, which is consistent with the current Eagle Academy academic calendar. No student will be accepted into this program until an application has been received and approved by district staff.

Attendance and Academics:

- Students are expected to be logged on and work on classes daily
- Students will be required to meet with an Eagle Academy staff member at least once per week--this can be in person individually during the remote learning hours (Monday-Friday 12:30-2:30) or online via google meet. Students can meet with staff more than once per week and can schedule that as needed.
- Students who do not engage in coursework or do not comply with the weekly check-in with an Eagle Academy staff member will be required to have a parent meeting with RTHS staff if they are remote due to medical necessity.
- Students who elect to enroll in remote learning and do not engage in coursework or do not comply with the weekly check-in with an Eagle Academy staff member will be required to return to the RTHS in-person program.

Other considerations:

- The RTHS Remote Learning Program is limited in scope. Students do not have access to the full range of courses offered in the in-person program.
- Students that participate in the RTHS Remote Learning Program must be willing and able to work independently on courses. Each student will have a student coordinator as well as the assistance of the Eagle Academy staff but courses will be primarily self-guided.

EAGLE ACADEMY

Eagle Academy is a credit recovery program that provides students an opportunity to become credit current by completing additional coursework. To be considered for the program a student must submit an application and complete an interview.

EAGLE ACADEMY ACADEMIC REQUIREMENTS:

- All students must complete the same number of credits and the same course work as any RTHS student. When they complete this course work they will graduate with an RTHS diploma. This program cannot be used to graduate ahead of a student's class.
- A student can return to RTHS at any time, this program is a CHOICE.
- Students earn credits through on-line courses, vocational work, independent P.E., independent study courses, and on-site teacher taught classes.

EAGLE ACADEMY ATTENDANCE REQUIREMENTS:

- ALL students are required to sign in and sign out; you will be counted absent if you do not.
- You need to call Eagle Academy, 892-6002, if you are going to be absent.

STANDARDIZED TESTING

Students and parents/guardians should be aware that students in grades 9-12 will take standardized tests in the spring. Letter grades are used to present student progress and are explained as follows:

<u>GRADE</u>	<u>% POINTS</u>	<u>SCALE 3</u>	<u>SCALE 2</u>	<u>SCALE 1</u>
A+	97-100	6.33	5.33	4.33

STANDARDS-BASED GRADING

RTHS is in the process of implementing standards-based grading. Standards-based grading is a system of grading that looks different than the traditional method of grading. Instead of averaging assignments and tests to come up with one score, students are assessed on a list of essential standards. Each standard is comprised of a series of learning targets. Students then get a series of grades on these learning targets throughout the term. Teachers are then able to work with students on the specific skills or targets that they need to improve. Teachers can track student learning in a more authentic way and parents can see exactly what students need to do to improve their understanding of the material. The following applies for all course that operate on the 4.0 scale. Honor's level courses on the 5.0 scale are adjusted slightly and that information can be found on course syllabi. Additionally, some special education courses operate on an adjusted grading scale which can also be found on course syllabi.

My teacher gave me a rating on a skill it is...	What does it mean when I get this on a standards?	What letter grade do I get? <i>Overall Letter Grade Numerical scale that converts to the letter grade in parenthesis</i>	Now what do I do...
4	I could teach a friend or consistently demonstrate this standard without help	A+, A, A- (4.0-3.52)	Celebrate, you are doing a great job and seem to understand all of the essential skills the teacher wants you to learn.
3	I can mostly demonstrate this standard without help, however there are still mistakes I am making with parts of the standard.	B+, B, B- (3.51-3.10)	You are well on your way to mastering the material in this class. You can continue to work on these skills by re-testing and make them into 4's.
2	I have a basic understanding of the standard. There are parts of the standard that I understand and can demonstrate really well, but there are parts where I get stuck and need additional help or re-teaching.	C+, C, C- (3.09-2.68) D+, D, D- (2.67-2.26)	These are skills that need additional practice. Ask your teacher how you can improve and make sure to re-take the skills that have 2's.
1	I have a very low understanding of the standard. I have either just learned this standard or I need additional help, re-teaching, or practice.	F (2.25-0.01)	You are struggling to understand or demonstrate these skills. Talk to your teacher as soon as you can about getting extra help and re-testing.
NA	I have not attempted this skill at all. This is like a missing assignment and is something I need to make up.	NA's convert to F's (0.00)	You have not attempted these skills at all. These are like zeros and will turn into F's in the gradebook if you don't get them cleared. See your teacher ASAP .

SECTION 5 GENERAL RULES AND GUIDELINES OF CONDUCT

STUDENT APPEARANCE

A student's appearance, including dress and hygiene, must not disrupt the educational process or compromise standards of health and safety. The school does not prohibit hairstyles historically associated with race, ethnicity, or hair texture, including, but not limited to, protective hairstyles such as braids, locks, and twists. Students who disrupt the educational process or compromise standards of health and safety must modify their appearance.

DRESS CODE

Our values are:

- All students should be able to dress comfortably for school without fear of or actual unnecessary discipline or body shaming.
- All students and staff should understand that they are responsible for managing their own personal "distractions" without regulating individual students' clothing/self-expression.

- Teachers can focus on teaching without the additional and often uncomfortable burden of dress code enforcement.
- Students should not face unnecessary barriers to school attendance. • Reasons for conflict and inconsistent discipline should be minimized whenever possible.

I. GOALS OF A STUDENT DRESS CODE

A student dress code should accomplish several goals:

- Maintain a safe learning environment in classes where protective or supportive clothing is needed, such as chemistry/biology (eye or body protection), dance (bare feet, tights/leotards), or PE (athletic attire/shoes).
- Allow students to wear clothing of their choice that is comfortable.
- Allow students to wear clothing that expresses their self-identified gender.
- Allow students to wear religious attire without fear of discipline or discrimination.
- Prevent students from wearing clothing with offensive images or language, including profanity, hate speech, and pornography.
- Prevent students from wearing clothing with images or language depicting or advocating violence or the use of alcohol or drugs.
- Ensure that all students are treated equitably regardless of gender/gender identification, sexual orientation, race, ethnicity, body type/size, religion, and personal style.

II. DRESS CODE POLICY

The primary responsibility for a student's attire resides with the student and parents or guardians. The school district and individual schools are responsible for seeing that student attire does not interfere with the health or safety of any student, and that student attire does not contribute to a hostile or intimidating atmosphere for any student.

Students should be given the most choice possible in how they dress for school. Any restrictions must be necessary to support the overall educational goals of the school and must be explained within the dress code.

The school districts should set the student dress code and enforcement policies for their entire district and take steps to ensure that all schools in the district adopt and follow it. Too often individual schools create their own student dress codes and enforce them in different ways that result in inequities within districts and in many cases policies and enforcement that are not consistent with the law or the district's intent.

1. Basic Principle: Certain body parts must be covered for *all* students

Clothes must be worn in a way such that genitals, buttocks, and breasts are covered with opaque (not see through) material. Cleavage should not have coverage requirements. All items listed in the "must wear" and "may wear" categories below must meet this basic principle.

2. Students **Must** Wear.*

- Shirt.
- Bottom: pants/sweatpants/shorts/skirt/dress/leggings
- Shoes; activity-specific shoes requirements are permitted (for example for sports)

* High-school courses that include attire as part of the curriculum (for example, professionalism, public speaking, and job readiness) may include assignment-specific dress, but should not focus on covering girls' bodies or promoting culturally-specific attire.

3. Students **May** Wear:

- Religious headwear, items required for hair care
- Fitted pants, including leggings, yoga pants and "skinny jeans"
- Midriff baring shirts
- Pajamas pants
- Ripped jeans, as long as underwear is not exposed.
- Tank tops, including spaghetti straps,
- Athletic attire
- Clothing with commercial or athletic logos provided they do not violate Section 3 above.

4. Students May Not Wear:

- Violent language or images.
- Images or language depicting drugs or alcohol (or any illegal item or activity) or the use of same.
- Hate speech, profanity, pornography.
- Images or language that creates a hostile or intimidating environment based on any protected class.
- Visible underwear. Visible waistbands or straps on undergarments worn under other clothing are not a violation.
- Bathing suits, halter tops, or tube tops
- Helmets, hats and hoods over the head. (except as a religious observance). These head coverings could potentially obscure the face of our students. For safety and security purposes our students need to be identifiable.

III. DRESS CODE ENFORCEMENT AT SCHOOLS

A school dress code is only as effective and fair as its enforcement. Historically school dress codes have been written and enforced in ways that disproportionately impact girls, students of color and gender expansive students.

- Enforcement should be consistent with a school's overall discipline plan. Failure to comply with the student dress code should be enforced consistently with comparable behavior and conduct violations, including access to a student advocate or ombudsperson and appeals process.
- Violations should be treated as minor on the continuum of school rule violations.
- Students should *never* be removed from a classroom / lose class time *solely* as a result of a dress code violation.
- Students should never be forced to wear extra school clothing (that isn't their own) when they are in violation of the code. That is akin to a dunce cap or scarlet letter. They can be asked to put on their own on-site clothing, if available, to be dressed more to code.
- No student should be disproportionately affected by dress code enforcement because of gender, race, body size, or body maturity.
- The dress code should be clearly conveyed to students, not just in the student handbook which rarely gets read, but in other ways, too, such as posters, newsletters, etc...
- Students should not be shamed or required to display their body in front of others (students, parents, or staff) in school. "Shaming" includes but is not limited to kneeling or bending over to check attire fit, measuring straps or skirt length, asking students to account for their attire in the classroom, and directing students to correct a dress code violation during instructional time.

Administrative Procedures for Appearance and Dress infractions:

- The student may be restricted from attending class for as long as one full day while the resolution process is ongoing. This may not be considered a disciplinary suspension. The administrator may attempt to provide the student with a place in the school where study may be accomplished. Work missed may be made up.
- In an effort to resolve the situation, the student may be offered hygiene services or clothing options (i.e. physical education uniform) in school that are sufficient to overcome the problem if available.
- Once the matter has been discussed with the student or with the student and parents, the student's refusal to cooperate may be treated as insubordination and will be disciplined appropriately under existing school rules dealing with insubordination.

STUDENT LUNCH ACCOUNT AND ID CARDS

Rantoul Township High School student I.D. cards are required in order to purchase lunch at R.T.H.S. through use of the automated system.

Students are to put additional money into their lunch account in the Main office before school or after school Parents may also come to the Main Office to put additional money into their student's lunch account. Students are to carry their I.D. cards when boarding the R.T.H.S. buses. A fee of \$1.00 will be charged to replace lost cards.

CAFETERIA RULES

A school cafeteria is provided for those students who wish to either purchase their lunches at school or carry and eat their lunches in the school. No lunches may be eaten at any other place within the school building and lunches may not be taken outside on school grounds. No student may leave the building unless accompanied by a parent/guardian and signed out/in through the main office. It is the expectation of the school that students clean up after themselves and put trays and garbage away in their proper places when finished eating. In an effort to provide a positive and safe lunch environment, the students are to remain seated while in the cafeteria. Students not abiding by cafeteria rules may be subject to school discipline

CELL PHONES

Cell phones are allowed to be carried in the building at Rantoul Township High School during the passing periods and during the lunch hour. **Cell phones should be turned off and put away before entering the classroom.** Cell phones create a disturbance to the educational climate by interrupting classes and invite inappropriate communications between students and others. Cell phones will be confiscated when seen or heard during class.

HALL PERMITS

No student shall be in the hall during regular class time without a hall permit issued by the teacher in charge of the student during that time. This will include trips to the restroom, library, and/or office, as well as to any place other than the room to which the student has been assigned. Passage shall be by the shortest and quickest route practicable without stopovers at other points or without bothering other classes in session. Hall permits shall be issued only as needed and must be turned in at the point of destination or returned to the teacher who originated the note. (**Administrative Policy**)

BOOK BAGS/GYM BAGS AND CARRY ALLS

Book bags and purses may be carried during the school day. Sports bags will only enter the building at the Main office doors under the supervision of a teacher or administrator and placed in a designated location. The school is not responsible for items that are left in the above mentioned bags. It is the responsibility of the student to secure his/her items. For this reason, each student is provided with a locker.

STUDENT LOCKERS

Each student will be assigned a locker. Students will keep the same locker for the four years of high school. Students having locker trouble are to come into the Main office and report the problem. Students will be held responsible for damages that occur to their locker during the school year.

Student lockers are the property of the school. School personnel or any designee acting as an agent of the school at any time, with or without the knowledge of the student, may search lockers. You will be required to clean your locker if writing or sticker decals are found on it. You may use magnets to hang up pictures on the inside of your locker. Pictures in lockers cannot be immoral or indecent or advertise drugs and/or alcohol. It is your responsibility to keep your locker locked and your combination confidential. **Students are not allowed to share lockers for any reason.**

LOCKER LOCATIONS

EAST WING:

277 – 533	Second Floor
534 – 809	Third Floor
810 – 935	L-shaped Corridor

Students may only use the telephone with a pass from a teacher. Students may not use the phone during passing periods without a pass from a teacher. Use of the telephone by students is limited to emergency calls and school business calls only. Calls are limited to two minutes.

AUTO REGULATIONS

All drivers should exercise extreme safety precautions. Parking permits are issued through the main office for a fee of \$50 per semester. Students are not to park in the faculty parking lots on Congress Street, visitor lots, or the Regional Office of Education parking lot across Sheldon Street. Students are to park in their assigned space. Any student driving dangerously in the parking lot or around the school may lose his/her parking permit and deposit. All vehicles in the district owned lots are subject to search without permission. Cars parked in spaces not assigned to the student driving the car will be towed at the owner's expense.

LIBRARY/MEDIA CENTER PROCEDURES

The library collection contains over 12,000 books, 40 magazines, and 5 newspapers. There will be no gum or food in the library. The library is a quiet place to do research. This atmosphere will be maintained. If at any time the librarian feels that a student is abusing his/her privileges, he/she will lose his/her privileges for a length of time. Books are checked out for two weeks and may be renewed. Magazines, reference books, and reserve books may be checked out after school for overnight. A fine is charged for overdue material. The fine on overnight material is 10 cents a period. The fine on two-week material is 5 cents a day. The library staff is here to assist the students. Students are encouraged to ask for help in any phase of library usage. Students must obtain a pass to utilize the library during school hours.

KEEP MOVING POLICY

Students must keep moving during passing periods including the time after the 7:55 AM bell rings. Students may stop at their own locker, the water fountain or the restroom for a reasonable amount of time. Otherwise the student should take a direct route to their next classroom and enter the room without delay. Students who fail to keep moving according to this policy will be subject to disciplinary action.

POSTING PRIVILEGES OF POSTERS AND CIRCULARS

1. Participation in a dance is a privilege and all school rules are enforced on or off campus. The student/parent handbook is in effect at all times.
2. Non-R.T.H.S. students must be of at least high school age and under 21 years of age. All guests must have been approved by the RTHS administration. A photo ID and a guest approval form are required. Forms may be obtained in the main office.

Violation of this privilege will result in future denial of bus riding privileges. All school rules of conduct apply to any field trip or school sponsored activity. (**Administrative Policy**)

- 3 Is primarily prepared by non-students and distributed in elementary and/or middle schools.

COMMENCEMENT CEREMONY PARTICIPATION:

High school graduation is a momentous occasion for all that are involved. This is a once in a lifetime moment that students and their families get to share. At RTHS we strive to present a ceremony of dignity and respect. It is expected that all participants, both students and audience members conduct themselves with the utmost dignity and respect. Prior to the ceremony the principal will set up meeting times with parents and guardians to explain the logistics of the ceremony as well as the expectations. Additionally, the principal will meet with the senior class to go over the expectations as well.

The commencement ceremony is a privilege not a right. There are certain expectations that students must meet to earn this privilege. They include but are not limited to: acceptable attendance, proper school conduct, and meeting all curricular expectations to graduate from RTHS.

Regular and acceptable attendance shall be a determining factor for participation in the commencement ceremony. Truancy is defined by the Illinois school code as, any student who is absent without valid cause from such attendance for 5% or more of the previous 180 regular attendance days can be considered a chronic truant. This can be equated to 9 days or any portion of the day of unexcused absences for the school year. A "truant" is defined as a child who is absent without valid cause from such attendance for a school day or portion thereof. Valid causes are explained in the attendance portion of the handbook. Students who fall under the definition of a truant run the risk of not participating in the ceremony.

Proper student conduct is expected and defined by the student handbook. It should also be noted that "senior pranks" or events that cause a substantial disruption to the school near the end of the school term will not be tolerated. Students involved in such activities run the risk of not participating in the ceremony.

SECTION 6 ATTENDANCE PROCEDURES AND GUIDELINES

ATTENDANCE

Illinois law requires that whoever has custody or control of any child between six (by September 1st) and seventeen years of age shall assure that the child attends school in the district in which he or she resides, during the entire time school is in session (unless the child has already graduated from high school). Illinois law also requires that whoever has custody or control of a child who is enrolled in the school, regardless of the child's age, shall assure that the child attends school during the entire time school is in session.

There are certain exceptions to the attendance requirement for children who: attend private school, are physically or mentally unable to attend school (including a pregnant student suffering medical complications as certified by her physician), are lawfully and necessarily employed, are between the ages of 12 and 14 while in confirmation classes, have a religious reason requiring absence, or are 16 or older and employed and enrolled in a graduation incentive program.

Regular attendance at school is a very important part of a good education for every student. Extensive planning and preparation by each teacher is disrupted and partially destroyed when student absenteeism is high. Only those students who attend every class every hour are able to receive full value from the instruction. **When a student must be absent from school, he/she must have his/her parent/guardian call and notify the school regarding the reason for the absence.** If possible, absences should be excused by the parent/guardian on the day of the absence. If this is not possible, absences then must be excused by 8:00 a.m. on the following day. Unless there are extenuating circumstances, no absences will be excused after that time. Calls may be made to 892-2151, number 1 in the directory, 24 hours per day, 7 days per week. **The maximum number of excused absences allowed in a semester is five (5).** Students with five (5) absences in a semester may be excused for additional absences only upon a written statement from a licensed physician explaining the reason for the absence. Students exceeding five (5) unexcused absences may be reported to the Regional Superintendent as chronically truant for further action and follow-up by the State's Attorney. Parents may request an absence to be excused only for the following reasons: personal illness, family illness, medical/dental appointments, funerals, and to attend a military honors funeral to sound TAPS. Absences for any other reason will be excused only upon the approval of the administrative staff. Oversleeping, bad weather, child care, missing the bus or lack of transportation are examples of unexcused absences. Absences due to school-sponsored activities (field trips, participation in RTHS sporting events, etc.) are not counted in the allowed number of excused absences. Students with excessive absences may be subject to being placed on an intensive behavior monitoring contract.

It is the student's responsibility to check in and out of the attendance office properly when leaving and returning to school. Failure to check out of school is not an excusable infraction. Failure to follow the proper procedure may result in disciplinary action. Upon returning to class following an absence, students are strongly encouraged to confer with their teacher(s) regarding make-up assignments. It is the student's responsibility to acquire make-up work after an absence. Students will have a reasonable amount of time to complete make up work. The teacher will determine the amount of time.

STUDENT ABSENCES

There are two types of absences: excused and unexcused. Excused absences include: illness (including mental or behavioral health of the student), observance of a religious holiday or event, death in the immediate family, family emergency, situations beyond the control of the student, circumstances that cause reasonable concern to the parent/guardian for the student's mental, emotional, or physical health or safety, attending a military honors funeral to sound TAPS, or other reason as approved by the building principal.

Additionally, a student will be excused for up to 5 days in cases where the student's parent/guardian is an active duty member of the uniformed services and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat-support postings. The Board of Education, in its discretion, may excuse a student for additional days relative to such leave or deployment. A student and the student's parent/guardian are responsible for obtaining assignments from the student's teachers prior to any excused absences and for ensuring that such assignments are completed by the student prior to his or her return to school.

Students who are excused from school will be given a reasonable timeframe to make up missed homework and classwork assignments.

All other absences are considered unexcused. Pre-arranged excused absences must be approved by the building principal. The school may require documentation explaining the reason for the student's absence.

In the event of any absence, the student's parent/guardian is required to call the school at 217-892-6000 before 8:00 a.m. to explain the reason for the absence. If a call has not been made to the school by 10:00 a.m. on the day of a student's absence, a school official will call the home to inquire why the student is not at school. If the parent/guardian cannot be contacted, the student will be required to submit a signed note from the parent/guardian explaining the reason for the absence. Failure to do so shall result in an unexcused absence. Upon request of the parent/guardian, the reason for an absence will be kept confidential.

TRUANCY

Student attendance is critical to the learning process. Truancy is therefore a serious issue and will be dealt with in a serious manner by the school and district.

Students who miss more than 1% but less than 5% of the prior 180 regular school days without valid cause (a recognized excuse) are truant. Students who miss 5% or more of the prior 180 regular school days without valid cause are chronic truants. Students who are chronic truants will be offered support services and resources aimed at correcting the truancy issue.

If chronic truancy persists after support services and other resources are made available, the school and district will take further action, including:

- Referral to the truancy officer
- Reporting to officials under the Juvenile Court Act
- Referral to the State's Attorney
- Appropriate school discipline

A student who misses 15 consecutive days of school without valid cause and who cannot be located or, after exhausting all available support services, cannot be compelled to return to school is subject to expulsion from school.

A parent or guardian who knowingly and willfully permits a child to be truant is in violation of State law.

PRE-ARRANGED ABSENCES

The administration must approve all planned absences no less than one week before the absence.

When a student knows ahead of time that he/she will be absent, he/she should secure advance assignments from each classroom teacher.

Notification after the fact will constitute an unexcused absence for each day the student is gone.

College visitation days are allowed up to two days per semester only with prior approval for juniors and seniors only. In order for a college visit day not to count as an absence, the student must return a form signed by a college admissions official verifying the visit not later than the day the student returns to school.

TARDINESS

A tardy is defined as not being in the classroom or gym when the final bell rings. Students who are tardy must report directly to class. Discipline will be issued based on the number of tardies and the amount of time a student is late.

SECTION 7 DISCIPLINE PROCEDURES

RTHS NON-NEGOTIABLES:

1. Cell Phones and Headphones/Earbuds: Cell phones and Headphones/earbuds may not be seen or heard in the classroom.
2. Profanity: Both direct and Indirect will not be tolerated.
3. Disrespect: Students will demonstrate respect toward others, staff, and school environment at all times.
4. Back and Forth: Communication between students and staff will be respectful and held at appropriate times.
5. Dress Code: Students will be dressed appropriately for school.

PLAGIARISM AND CHEATING

Plagiarism is defined by Merriam-Webster Online as “to steal and pass off the ideas and words of another as one’s own: use another’s production without crediting the source; to commit literary theft: present as new and original idea or product derived from an existing source.” Cheating is considered “copying,” “sharing,” or “giving” answers, whether you are the one who is doing the cheating or assisting in the cheating. Using Cliffs’ Notes or other kind of notes to replace assigned reading is also considered cheating.

The following procedure will be used to handle both plagiarism and cheating:

1. Zero tolerance – Plagiarism of any kind simply will not be tolerated.
2. If plagiarism is suspected, the student will be approached and asked to explain their actions in addition to a parent contact.
3. Depending on the severity of the act, administration will be notified, and a grade of a “0” will be given for the plagiarized assignment. The same procedure will be taken for cheating on exams, quizzes, or other classroom assignments.

PREVENTION OF AND RESPONSE TO BULLYING, INTIMIDATION, AND HARASSMENT

Bullying, intimidation, and harassment diminish a student’s ability to learn and a school’s ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important district and school goals.

Bullying on the basis of actual or perceived race, color, national origin, immigration status, military status, unfavorable discharge status from the military service, sex, sexual orientation, gender identity, gender-related identity or expression, ancestry, age, religion, physical or mental disability, order of protection status, status of being homeless, or actual or potential marital or parental status, including pregnancy, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic **is prohibited** in each of the following situations:

1. During any school-sponsored education program or activity.
2. While in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities.
3. Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment.

4. Through the transmission of information from a computer that is accessed at a non-school-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by the school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school.

Bullying includes cyber-bullying (bullying through the use of technology or any electronic communication) and means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student or students that has or can be reasonably predicted to have the effect of one or more of the following:

1. Placing the student or students in reasonable fear of harm to the student's or students' person or property;
2. Causing a substantially detrimental effect on the student's or students' physical or mental health;
3. Substantially interfering with the student's or students' academic performance; or
4. Substantially interfering with the student's or students' ability to participate in or benefit from the services, activities, or privileges provided by a school.

Cyberbullying means bullying through the use of technology or any electronic communication, including without limitation any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photo-electronic system, or photo-optical system, including without limitation electronic mail, Internet communications, instant messages, or facsimile communications. Cyberbullying includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of bullying. Cyberbullying also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of bullying.

Bullying may take various forms, including without limitation one or more of the following: harassment, threats, intimidation, stalking, physical violence, sexual harassment, sexual violence, theft, public humiliation, destruction of property, or retaliation for asserting or alleging an act of bullying. This list is meant to be illustrative and non-exhaustive.

Students are encouraged to immediately report bullying. A report may be made orally or in writing to the building principal, district complaint manager or any staff member with whom the student is comfortable speaking. All school staff members are available for help with a bully or to make a report about bullying. Anyone, including staff members and parents/guardians, who has information about actual or threatened bullying is encouraged to report it to the district complaint manager or any staff member. Anonymous reports are also accepted by phone call or in writing.

A reprisal or retaliation against any person who reports an act of bullying is prohibited. A student's act of reprisal or retaliation will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.

A student will not be punished for reporting bullying or supplying information, even if the school's investigation concludes that no bullying occurred. However, knowingly making a false accusation or providing knowingly false information will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.

Students and parents/guardians are also encouraged to read the following school district policies: 7:20, *Harassment of Students Prohibited* and 7:180, *Prevention of and Response to Bullying, Intimidation and Harassment*.

SEXUAL HARASSMENT & TEEN DATING VIOLENCE PROHIBITED

Sexual Harassment Prohibited

Sexual harassment of students is prohibited. A person engages in sexual harassment whenever he or she makes sexual advances, requests sexual favors, and/or engages in other verbal or physical conduct, including sexual violence, of a sexual or sex-based nature, imposed on the basis of sex, that:

1. Denies or limits the provision of educational aid, benefits, services, or treatment; or that makes such conduct a condition of a student's academic status; or
2. Has the purpose or effect of:
 - a. Substantially interfering with a student's educational environment;
 - b. Creating an intimidating, hostile, or offensive educational environment;
 - c. Depriving a student of educational aid, benefits, services, or treatment; or
 - d. Making submission to or rejection of such conduct the basis for academic decisions affecting a student.

The terms *intimidating*, *hostile*, and *offensive* include conduct that has the effect of humiliation, embarrassment, or discomfort. Examples of sexual harassment include touching, crude jokes or pictures, discussions of sexual experiences, teasing related to sexual characteristics, and spreading rumors related to a person's alleged sexual activities. The term *sexual violence* includes a number of different acts. Examples of sexual violence include, but are not limited to, rape, sexual assault, sexual battery, sexual abuse, and sexual coercion.

Teen Dating Violence Prohibited

Engaging in teen dating violence that takes place at school, on school property, at school-sponsored activities, or in vehicles used for school-provided transportation is prohibited. For purposes of this policy, the term *teen dating violence* occurs whenever a student who is 13 to 19 years of age uses or threatens to use physical, mental, or emotional abuse to control an individual in the dating relationship; or uses or threatens to use sexual violence in the dating relationship.

Making a Complaint; Enforcement

Students are encouraged to report claims or incidents of sexual harassment, teen dating violence or any other prohibited conduct to the nondiscrimination coordinator, building principal, assistant building principal, dean of students, or a complaint manager. A student may choose to report to a person of the student's same sex. Complaints will be kept confidential to the extent possible given the need to investigate. Students who make good faith complaints will not be disciplined.

SEARCH AND SEIZURE

In order to maintain order safety and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. "School authorities" includes school liaison police officers.

School Property and Equipment as well as Personal Effects Left There by Students

School authorities may inspect and search school property and equipment owned or controlled by the school (such as, lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there.

The building principal may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

Students Searches

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the school or district's student rules and policies. The search will be conducted in a manner that is reasonably related to its objective of the search and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

School officials may require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates the school's disciplinary rules or school district policy. In the course of the investigation, the student may be required to share the content that is reported in order for the school to make a factual determination. School officials may not request or require a student or his or her parent/guardian to provide a password or other related account information to gain access to the student's account or profile on a social networking website.

Seizure of Property

If a search produces evidence that the student has violated or is violating either the law or the school or district's policies or rules, evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, evidence may be transferred to law enforcement authorities.

Questioning of Students Suspected of Committing Criminal Activity

Before a law enforcement officer, school resource officer, or other school security person detains and questions on school grounds a student under 18 years of age who is suspected of committing a criminal act, the building principal or designee will: (a) Notify or attempt to notify the student's parent/guardian and document the time and manner in writing; (b) Make reasonable efforts to ensure the student's parent/guardian is present during questioning or, if they are not present, ensure that a school employee (including, but not limited to, a social worker, psychologist, nurse, guidance counselor, or any other mental health professional) is present during the questioning; and (c) If practicable, make reasonable efforts to ensure that a law enforcement officer trained in promoting safe interactions and communications with youth is present during the questioning.

COMPUTER AND INTERNET ACCEPTABLE USE

Internet access is available to students and teachers in the Rantoul Township High School District 193. We are very pleased to supply this access to Rantoul Township High School and believe the internet offers vast, diverse, and unique resources to both students and staff. Our goal in providing this service to teachers and students is to promote educational excellence in district schools by facilitating resource sharing, innovation, and communication.

With access to computers and people all over the world also comes the availability of material that may not be considered to be of educational value in the context of a school setting. On a global network, it is impossible to control all materials and an industrious user may discover controversial information. We (Rantoul Township High School District 193) firmly believe that the valuable information and interaction available on this worldwide network far outweigh the possibility that users may procure material that is not consistent with the learning outcomes of the district.

If a Rantoul Township High School student chooses to access resources that are objectionable, adult-oriented, or restricted, the consequence will be suspension or termination of access privileges and/or administrative sanctions as appropriate. **(Board Policy #355)**

All use of electronic network use must be consistent with the school's goal of promoting educational excellence by facilitating resource sharing, innovation, and communication. These rules do not attempt to state all required or proscribed behavior by users. However, some specific examples are provided. The failure of any user to follow these rules will result in the loss of privileges, disciplinary action, and/or appropriate legal action.

Acceptable Use - Access to the electronic network must be: (a) for the purpose of education or research, and be consistent with the District's educational objectives, or (b) for legitimate business use.

Privileges - The use of the electronic network is a privilege, not a right, and inappropriate use will result in a cancellation of those privileges. The system administrator or Building Principal will make all decisions regarding whether or not a user has violated these procedures and may deny, revoke, or suspend access at any time. His or her decision is final.

Unacceptable Use - The user is responsible for his or her actions and activities involving the network. Some examples of unacceptable uses are:

- a. Using the network for any illegal activity, including violation of copyright or other contracts, or transmitting any material in violation of any State or federal law;
- b. Unauthorized downloading of software, regardless of whether it is copyrighted or de-virused;
- c. Downloading of copyrighted material for other than personal use;
- d. Using the network for private financial or commercial gain;
- e. Wastefully using resources, such as file space;
- f. Hacking or gaining unauthorized access to files, resources, or entities;
- g. Invading the privacy of individuals, that includes the unauthorized disclosure, dissemination, and use of information about anyone that is of a personal nature including a photograph;
- h. Using another user's account or password;
- i. Posting material authored or created by another without his/her consent;
- j. Posting anonymous messages;
- k. Using the network for commercial or private advertising;
- l. Accessing, submitting, posting, publishing, or displaying any defamatory, inaccurate, abusive, obscene, profane, sexually oriented, threatening, racially offensive, harassing, or illegal material; and
- m. Using the network while access privileges are suspended or revoked.

Network Etiquette - The user is expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to, the following:

- a. Be polite. Do not become abusive in messages to others.
- b. Use appropriate language. Do not swear, or use vulgarities or any other inappropriate language.
- c. Do not reveal personal information, including the addresses or telephone numbers, of students or colleagues.
- d. Recognize that email is not private. People who operate the system have access to all email. Messages relating to or in support of illegal activities may be reported to the authorities.
- e. Do not use the network in any way that would disrupt its use by other users.
- f. Consider all communications and information accessible via the network to be private property.

No Warranties - The District makes no warranties of any kind, whether expressed or implied, for the service it is providing. The District will not be responsible for any damages the user suffers. This includes loss of data resulting from delays, non-deliveries, missed-deliveries, or service interruptions caused by its negligence or the user's errors or omissions. Use of any information obtained via the Internet is at the user's own risk. The District specifically denies any responsibility for the accuracy or quality of information obtained through its services.

Indemnification - The user agrees to indemnify the School District for any losses, costs, or damages, including reasonable attorney fees, incurred by the District relating to, or arising out of, any violation of these procedures.

Security - Network security is a high priority. If the user can identify a security problem on the Internet, the user must notify the system administrator or Building Principal. Do not demonstrate the problem to other users. Keep your account and password confidential. Do not use another individual's account without written permission from that individual. Attempts to log-on to the Internet as a system administrator will result in cancellation of user privileges. Any user identified as a security risk may be denied access to the network.

Vandalism - Vandalism will result in cancellation of privileges and other disciplinary action. Vandalism is defined as any malicious attempt to harm or destroy data of another user, the Internet, or any other network. This includes, but is not limited to, the uploading or creation of computer viruses.

Telephone Charges - The District assumes no responsibility for any unauthorized charges or fees, including telephone charges, long-distance charges, per-minute surcharges, and/or equipment or line costs.

Copyright Web Publishing Rules - Copyright law and District policy prohibit the re-publishing of text or graphics found on the web or on District websites or file servers without explicit written permission.

- a. For each re-publication (on a website or file server) of a graphic or a text file that was produced externally, there must be a notice at the bottom of the page crediting the original producer and noting how and when permission was granted. If possible, the notice should also include the web address of the original source.
- b. Students engaged in producing web pages must provide library media specialists with email or hard copy permissions before the web pages are published. Printed evidence of the status of "public domain" documents must be provided.
- c. The absence of a copyright notice may not be interpreted as permission to copy the materials. Only the copyright owner may provide the permission. The manager of the website displaying the material may not be considered a source of permission.

Use of Email - The District's email system, and its constituent software, hardware, and data files, are owned and controlled by the School District. The School District provides email to aid students as an education tool.

- a. The District reserves the right to access and disclose the contents of any account on its system, without prior notice or permission from the account's user. Unauthorized access by any student to an email account is strictly prohibited.
- b. Each person should use the same degree of care in drafting an email message as would be put into a written memorandum or document. Nothing should be transmitted in an email message that would be inappropriate in a letter or memorandum.
- c. Electronic messages transmitted via the School District's Internet gateway carry with them an identification of the user's Internet *domain*. This domain is a registered name and identifies the author as being with the School District. Great care should be taken, therefore, in the composition of such messages and how such messages might reflect on the name and reputation of the School District. Users will be held personally responsible for the content of any and all email messages transmitted to external recipients.
- d. Any message received from an unknown sender via the Internet should either be immediately deleted or forwarded to the system administrator. Downloading any file attached to any Internet-based message is prohibited unless the user is certain of that message's authenticity and the nature of the file so transmitted.
- e. Use of the School District's email system constitutes consent to these regulations.

ANNUAL NOTICE TO PARENTS ABOUT EDUCATIONAL TECHNOLOGY VENDORS UNDER THE STUDENT ONLINE PERSONAL PROTECTION ACT

School districts throughout the State of Illinois contract with different educational technology vendors for beneficial K-12 purposes such as providing personalized learning and innovative educational technologies, and increasing efficiency in school operations.

Under Illinois' Student Online Personal Protection Act, or SOPPA (105 ILCS 85/), educational technology vendors and other entities that operate Internet websites, online services, online applications, or mobile applications that are designed, marketed, and primarily used for K-12 school purposes are referred to in SOPPA as *operators*. SOPPA is intended to ensure that student data collected by operators is protected, and it requires those vendors, as well as school districts and the Ill. State Board of Education, to take a number of actions to protect online student data.

Depending upon the particular educational technology being used, our District may need to collect different types of student data, which is then shared with educational technology vendors through their online sites, services, and/or applications. Under SOPPA, educational technology vendors are prohibited from selling or renting a student's information or from engaging in targeted advertising using a student's information. Such vendors may only disclose student data for K-12 school purposes and other limited purposes permitted under the law.

In general terms, the types of student data that may be collected and shared include personally identifiable information (PII) about students or information that can be linked to PII about students, such as:

- Basic identifying information, including student or parent/guardian name and student or parent/guardian contact information, username/password, student ID number
- Demographic information
- Enrollment information

- Assessment data, grades, and transcripts
- Attendance and class schedule
- Academic/extracurricular activities
- Special indicators (e.g., disability information, English language learner, free/reduced meals or homeless/foster care status)
- Conduct/behavioral data
- Health information
- Food purchases
- Transportation information
- In-application performance data
- Student-generated work
- Online communications
- Application metadata and application use statistics
- Permanent and temporary school student record information

Operators may collect and use student data only for K-12 purposes, which are purposes that aid in the administration of school activities, such as:

- Instruction in the classroom or at home (including remote learning)
- Administrative activities
- Collaboration between students, school personnel, and/or parents/guardians
- Other activities that are for the use and benefit of the school district

STUDENT USE OF ELECTRONIC DEVICES

The use of electronic devices and other technology at school is a privilege, not a right. Students are prohibited from using electronic devices, except as provided herein. An electronic device includes, but is not limited to, the following: cell phone, smart phone, audio or video recording device, personal digital assistant (PDA), iPod®, iPad®, laptop computer, tablet computer or other similar electronic device. Pocket pagers and other paging devices are not allowed on school property at any time, except with the express permission of the building principal.

During instructional time, which includes class periods and passing periods, electronic devices must be kept powered-off and out-of-sight unless: (a) permission is granted by an administrator, teacher or school staff member; (b) use of the device is provided in a student's individualized education program (IEP); or (c) it is needed in an emergency that threatens the safety of students, staff, or other individuals.

Students are allowed to use electronic devices during non-instructional time, which is defined as before and after school and during the student's lunch period.

Electronic devices may never be used in any manner that disrupts the educational environment, violates student conduct rules or violates the rights of others. This includes, but is not limited to, the following: (1) using the device to take photographs in locker rooms or bathrooms; (2) cheating; and (3) creating, sending, sharing, viewing, receiving, or possessing an indecent visual depiction or non-consensual dissemination of private sexual images (i.e., sexting).

The school and school district are not responsible for the loss, theft or damage to any electronic device brought to school.

Students in violation of this procedure are subject to the following consequences:

1. First offense – The device will be confiscated and turned into administration. Parent/Guardian may pick it up after 3:45 in the school office.
2. Second offense – The device will be confiscated and turned into administration. Parent/Guardian may pick it up after 3:45 in the school office. In-School Isolation may be assigned.

School officials may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates a school disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination.

ACCESS TO STUDENT SOCIAL NETWORKING PASSWORDS & WEBSITES

School officials may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates a school disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination.

BUS TRANSPORTATION

The district provides bus transportation to and from school for all students living 1.5 miles or more from the school. A list of bus stops will be published at the beginning of the school year before student registration. Parents must, at the beginning of the school year, select one bus stop at which a student is to be picked up, and one stop at which a student is to be dropped off. Students are not permitted to ride a bus other than the bus to which they are assigned. Exceptions must be approved in advance by the building principal.

While students are on the bus, they are under the supervision of the bus driver. In most cases, bus discipline problems can be handled by the bus driver. In the case of a written disciplinary referral, student bus problems will be investigated and handled by the building principal.

Students are expected to follow all school rules while on the bus. Students may be suspended from riding the school bus for up to 10 consecutive school days for violating school rules or for engaging in other gross disobedience or misconduct. The school board may suspend the student from riding the school bus for a period in excess of 10 days for safety reasons. The district's regular suspension procedures shall be used to suspend a student's privilege to ride a school bus.

In the interest of the student's safety and in compliance with State law, students are also expected to observe the following:

1. Dress properly for the weather. Make sure all drawstrings, ties, straps, etc. on all clothing, backpacks and other items, are shortened or removed to lessen the likelihood of them getting caught in bus doors, railings or aisles.
2. Arrive on time at the bus stop, and stay away from the street while waiting for the bus.
3. Stay away from the bus until it stops completely and the driver signals you to board. Enter in single file without pushing. Always use the handrail.
4. Take a seat right away and remain seated facing forward. Keep your hands, arms, and head inside the bus.
5. Talk quietly on the bus. No shouting or creating loud noises that may distract the driver. Tablets, iPods®, iPads®, smart phones, and other electronic devices must be silenced on the bus unless a student uses headphones.
6. Help keep the bus neat and clean. Keep belongings out of the aisle and away from emergency exits. Eating and drinking are not allowed on the bus.
7. Always listen to the driver's instructions. Be courteous to the driver and other students. Sit with your hands to yourself and avoid making noises that would distract the driver or bother other passengers. Remain seated, keeping your hands, arms, and head inside the bus at all times.
8. Wait until the bus pulls to a complete stop before standing up. Use the handrail when exiting the bus.
9. Stay out of the danger zone next to the bus where the driver may have difficulty seeing you. Take five giant steps away from the bus and out of the danger zone, until you can see the driver and the driver sees you. Never crawl under a bus.
10. If you must cross the street after you get off the bus, wait for the driver's signal and then cross in front of the bus. Cross the street only after checking both ways for traffic.
11. Never run back to the bus, even if you dropped or forgot something.

Video and audio cameras may be active on busses to record student conduct and may be used for the purposes of investigation into misconduct or accidents on the bus.

For questions regarding school transportation issues, contact Tony Worthington, (217) 892-6133.

BUS CONDUCT

Students are expected to follow all schools when riding the school bus. A student may be suspended from riding the bus for up to 10 consecutive school days for engaging in gross disobedience or misconduct, including but not limited to, the following:

1. Violating any school rule or school district policy.
2. Willful injury or threat of injury to a bus driver or to another rider.
3. Willful and/or repeated defacement of the bus.
4. Repeated use of profanity.
5. Repeated willful disobedience of a directive from a bus driver or other supervisor.
6. Such other behavior as the building principal deems to threaten the safe operation of the bus and/or its occupants.

If a student is suspended from riding the bus for gross disobedience or misconduct on a bus, the School Board may suspend the student from riding the school bus for a period in excess of 10 days for safety reasons.

A student suspended from riding the bus who does not have alternate transportation to school shall have the opportunity to complete or make up work for equivalent academic credit. It shall be the responsibility of the student's parent or guardian to notify the school that the student does not have alternate transportation.

The prohibition in this section does not apply to a student's use of asthma or other legally prescribed inhalant medications.
 - f) "Look-alike" or counterfeit drugs, including a substance that is not prohibited by this policy, but one: (a) that a student believes to be, or represents to be, an illegal drug, controlled substance, or other substance that is prohibited by this policy; or (b) about which a student engaged in behavior that would lead a reasonable person to believe that the student expressly or impliedly represented to be an illegal drug, controlled substance or other substance that is prohibited by this policy.

Prohibited conduct specifically includes, without limitation, creating and sending, sharing, viewing, receiving or possessing an indecent visual depiction of oneself or another person through the use of a computer, electronic communication device or cellular telephone, commonly known as “sexting.” Unless otherwise banned under this policy or by the building principal, all cellular phones, smartphones and other electronic devices must be kept powered-off and out-of-sight during the regular school day unless: (a) the supervising teacher grants permission; (b) use of the device is provided in a student’s individualized education program (IEP); (c) it is used during the student’s lunch period; or (d) it is needed in an emergency that threatens the safety of students, staff, or other individuals.
7. Using or possessing a laser pointer unless under a staff member’s direct supervision and in the context of instruction.

10. 21. Making an explicit threat on an Internet website against a school employee, a student, or any school-related personnel if the Internet website through which the threat was made is a site that was accessible within the school at the time the threat was made or was available to third parties who worked or studied within the school grounds at the time the threat was made, and the threat could be reasonably interpreted as threatening to the safety and security of the threatened individual because of his or her duties or employment status or status as a student inside the school.
22. Operating an unarmed aircraft system (AUS) or drone for any purpose on school grounds or at any school event unless granted permission by the building principal.

Efforts, including the use of positive interventions and supports shall be made to deter students, while at school or a school-related event, from engaging in aggressive behavior that may reasonably produce physical or psychological harm to someone else.

No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student’s parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

WHEN AND WHERE CONDUCT RULES APPLY

The grounds for disciplinary action also apply whenever the student’s conduct is reasonably related to school or school activities, including but not limited to:

1. On, or within sight of, school grounds before, during, or after school hours or at any time;
2. Off school grounds at a school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school;
3. Traveling to or from school or a school activity, function, or event; or
4. Anywhere, if the conduct interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including but not limited to, conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property; or
5. During periods of remote learning.

DISCIPLINARY MEASURES

School officials shall limit the number and duration of expulsions and out-of-school suspensions to the greatest extent practicable, and, where practicable and reasonable, shall consider forms of non-exclusionary discipline before using out-of-school suspensions or expulsions. School personnel shall not advise or encourage students to drop out of school voluntarily due to behavioral or academic difficulties. Potential disciplinary measures include, without limitation, any of the following measures:

1. Notifying parents/guardians
2. Disciplinary conference.
3. Withholding of privileges.
4. Temporary removal from the classroom.
5. Return of property or restitution for lost, stolen or damaged property.
6. In-school suspension.
7. After-school study or Saturday study provided the student’s parent/guardian has been notified. (If transportation arrangements cannot be made in advance, an alternative disciplinary measure will be assigned to the student.)
8. Community service.

9. Seizure of contraband; confiscation and temporary retention of the personal property that was used to violate school rules.
10. Suspension of bus riding privileges.
11. Suspension from school and all school activities for up to 10 days. A suspended student is prohibited from being on school grounds.
12. Expulsion from school and all school activities for a definite time period not to exceed 2 calendar years. An expelled student is prohibited from being on school grounds.
13. Transfer to an alternative program if the student is expelled or otherwise qualifies for transfer under State law.
14. Notifying juvenile authorities or other law enforcement whenever the conduct involves criminal activity, such as, illegal drugs (controlled substances), "look-alikes," alcohol or weapons or in other circumstances as authorized by the reciprocal reporting agreement between the District and local law enforcement agencies.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension or expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion.

ISOLATED TIME OUT, TIME OUT AND PHYSICAL RESTRAINT

Isolated time out, time out, and physical restraint shall only be used if the student's behavior presents an imminent danger of serious physical harm to the student or others and other less restrictive and intrusive measures were tried and proven ineffective in stopping it. The school may not use isolated time out, time out, and physical restraint as discipline or punishment, convenience for staff, retaliation, a substitute for appropriate educational or behavioral support, a routine safety matter, or to prevent property damage in the absence of imminent danger of serious physical harm to the student or others.

CORPORAL PUNISHMENT

Corporal punishment is illegal and will not be used. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

WEAPONS PROHIBITION

A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of not less than one year but not more than 2 calendar years:

The expulsion period may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.
- (2) A knife, brass knuckles or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including "look-alikes" of any firearm as defined above.

The expulsion requirement may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

GANG & GANG ACTIVITY PROHIBITED

“Gang” is defined as any group, club or organization of two or more persons whose purposes include the commission of illegal acts. No student on or about school property or at any school activity or whenever the student’s conduct is reasonably related to a school activity, shall: (1) wear, possess, use, distribute, display, or sell any clothing, jewelry, paraphernalia or other items which reasonably could be regarded as gang symbols; commit any act or omission, or use either verbal or non-verbal gestures, or handshakes showing membership or affiliation in a gang; or (2) use any speech or commit any act or omission in furtherance of the interest of any gang or gang activity, including, but not limited to, soliciting others for membership in any gangs; (3) request any person to pay protection or otherwise intimidate, harass or threaten any person; (4) commit any other illegal act or other violation of district policies, (5) or incite other students to act with physical violence upon any other person.

RE-ENGAGEMENT OF RETURNING STUDENTS

The building principal or designee shall meet with a student returning to school from an out-of-school suspension, expulsion or alternative school setting. The goal of this meeting shall be to support the student’s ability to be successful in school following a period of exclusion and shall include an opportunity for students who have been suspended to complete or make-up missed work for equivalent academic credit.

SUSPENSION AND EXPULSION

School officials Actions to Removal

Suspension 1-3 Days	Suspension 4 Days	Suspension 5-10	Expulsion
Threat to school safety or disruptive to other students’ learning opportunities	Threat to safety of other students, staff, or the school community or Substantially disrupts, impedes, or interferes with the operation of the school.	Threat to safety of other students, staff, or the school community or Substantially disrupts, impedes, or interferes with the operation of the school.	Threat to safety of other students, staff, or the school community or Substantially disrupts, impedes, or interferes with the operation of the school.

DETENTION

Administrative issued detentions are to be served Monday through Friday during the student’s lunch hour. Teacher-issued detentions will be served with the instructor. Administrative detentions are 30 minutes in length. Generally speaking, the student will be expected to serve his/her detention the day it is assigned. Absence from school on day of assigned detention does not relieve the student from serving detention. Students who do not serve detentions when assigned will be subject to additional consequences.

Students should bring books, appropriate reading materials, and/or assignments needed for their time spent in the detention room. Students who display inappropriate behavior in detention may be dismissed. Students who are dismissed from detention may be subject to more severe consequences. Students are expected to be punctual in reporting to detention. **(Administrative Policy)**

SOCIAL PROBATION

If a student fails to serve an assigned Administrative detention, they will be placed on Social Probation. This means the student will not be able to attend after-school events, meetings, or practices until their detention(s) is served. Examples of after-school events may include, but are not limited to athletic events, athletic practices, academic and club meetings, school-sponsored dances, plays, musicals, concerts, etc...

IN-SCHOOL ISOLATION

In-School Isolation (ISI) is issued to students as a consequence that is more severe than an administrative detention. ISI is served in a designated room during the school day. This consequence provides students with an opportunity to stay in school and complete work under the supervision of a staff member while also being secluded from the rest of the students. In-School Isolation can only be assigned by an Administrator for a specific period of the day or for multiple days.

TEMPORARY REMOVAL FROM CLASS

In the event a teacher feels it is necessary to remove a student from class, the student will be directed to the Main Office to speak with an administrator. A discipline referral form will be completed by the teacher indicating the reason for the dismissal and what attempts have been taken to correct the behavior. The administration views student removal from class as a serious offense indicating that the teacher has utilized all means to improve behavior and is seeking Administrative assistance. A student may be issued a period suspension and placed in a designated area to study for that period on the assigned date(s). Parents will be notified of such incidents and a parent conference may be required prior to reinstatement back to the class. (***Administrative Policy***)

SECTION 8 EXTRA CURRICULAR ACTIVITIES

NATIONAL HONOR SOCIETY

Potential National Honor Society members must meet the following criteria:

1. Juniors with a 4.75 cumulative average after 4 semesters
2. Student at Rantoul Township High School for two semesters
3. A completed application including their service and leadership roles
4. Staff approval

Seniors who have achieved this goal may also be inducted during the winter ceremony. Any member falling below a 4.6 average or failing to maintain the standards by which they were selected will be subject to probation and/or dismissal from N.H.S.

SECTION 9 RANTOUL TOWNSHIP HIGH SCHOOL ATHLETIC CODE

Participation in athletics is a privilege and not an absolute right of Rantoul Township High School (RTHS) students. Those who participate in athletics have a responsibility to favorably represent the school and community. Student athletes are expected to conduct themselves both in and out of school in a manner appropriate to their responsibilities as representatives of the school and district. If a student fails to comply with the terms of this code, the privilege to participate in athletics may be lost in accordance with the terms of this Athletic Code. The following rules are set forth by the Athletic Department for all RTHS students who participate on any RTHS athletic team, cheerleading squad, or dance squad.

These rules are in effect from the beginning of fall practice of the athlete's freshman year until the student-athlete completes eligibility or graduates, whichever is later, and are approved and supported by the RTHS Board of Education. Violations of the Athletic Rules will result in the appropriate consequence being assessed as per the "Penalties" section of this Code. Violations include:

1. Falsification of a signature on the Athletic Code, Athletic Permit, or Athletic Physical; or
2. Theft or vandalism of property, in or out of school or while on suspension from school. It is conclusive evidence of such action that the student has entered a plea of no contest or has been convicted of such an offense by legal authorities; or
3. Any behavior or action which is negligently or intentionally injurious to a person or property or which places a person or property at risk of injury or damage; or
4. Smoking or use of smokeless tobacco; or
5. Use or possession of alcoholic beverages; or
6. Use or possession of illegal drugs or misuse of prescription drugs to include look alike substances; or
7. Choosing to remain at a site where illegal drugs/alcohol is being served; or
8. Gross violations of the tenets of fair play and good sportsmanship; or
9. Any action that is detrimental to RTHS and/or the community.

All potential violations will be considered by the athletic director and the athletic committee if necessary. The athletic committee will determine if the infraction is indeed an athletic code violation. The athletic committee will be determined before the start of the school year.

Reporting Athletic Rule Violation

The athletic code record and consequences are cumulative beginning with the student athlete's first admission to the school and the signing of the athletic code by the student and the parent for the first time throughout the student's high school athletic career. The policies are in effect on or off campus throughout the entire calendar year, including weekends and summer. Suspension for violations will start from the point of discovery of the violation. If the athlete is suspended during a season, he/she must complete the season in good standing in the sport in which the suspension is being administered. Athletes who are unable to complete the sanction during the course of the current sports season shall complete the sanction during the next sports season, as long as the sport is completed in good standing.

Self-reporting

An athlete or parent may voluntarily admit an athletic code violation to the Athletic Director, Coach or Administrator provided that:

1. Self-reporting may be used each time a student-athlete may have violated the athletic code and will benefit the student-athlete in determining the appropriate consequence.
2. A student or parent must voluntarily self-report his/her infraction within forty-eight (48) hours of the infraction. No provision is made for weekends or holidays. The report must be within 48 hours with no extension
3. The report must come before the Athletic Director, Coach or Administrator has learned of the event independently of the self-reporting within the first 48 hours of an incident or the first school day whichever comes first.
4. Self-reporting shall serve as substantial evidence for enforcing consequences as outlined in this policy.

First Offense

For a first offense in violation of any part of the Athletic Code, the athlete will be suspended for one-third (1/3) of the total contests in his/her current sport season or the first scheduled sport in which the individual participates. For purposes of this section, regular season contests only will be counted. If a suspension is not completed by the post-season, the suspension will continue throughout the post-season and will still be completed in the next regular season as set forth above.

If a student self-reports as defined above, the suspension for the first offense may be reduced from one third (1/3) to one fifth (1/5) of the contests. In the event of a self-report as defined above, the offense will be expunged from the athlete's record if no further offense is committed within two (2) calendar years from the date of the first offense.

During any suspension, the athlete must attend all practices and contests and follow all requirements for the sport successfully as set out by the coach for the entire season. Failure to successfully complete the season will void any suspension served and the suspension will remain in effect as if no contests have already been served.

Second Offense

A second violation of the athletic code will result in a suspension from one-half (1/2) of the scheduled contests for the current sport season or the first scheduled sport in which the individual participates. For purposes of this section, regular season contests only will be counted. If a suspension is not completed by the post-season, the suspension will continue throughout the post-season and will still be completed in the next regular season as set forth above.

If a student self-reports as defined above, the suspension for the second offense may be reduced from one half (1/2) to one third (1/3) of the contests. In the event of a self-report as defined above, the offense will be expunged from the athlete's record if no further offense is committed within two (2) calendar years from the date of the second offense.

During any suspension, the athlete must attend all practices and contests and follow all requirements for the sport successfully as set out by the coach for the entire season. Failure to successfully complete the season will void any suspension served and the suspension will remain in effect as if no contests have already been served.

Third and Subsequent Offenses

A third violation or subsequent offenses of the Athletic Code will result in the student being suspended from RTHS athletics for 1 calendar year from the date of the suspension. Once a third offense has been determined, then the process for possible reinstatement will follow the guidelines outlined here. A third and subsequent violation will require a meeting with the athletic director, athletic committee to be determined before the start of the school year, the parents of the student-athlete, and student-athlete. The meeting will be the opportunity for all parties involved to discuss how the student-athlete can become successful, not in sports, but in life. The parents and student-athlete will come up with a plan designed to get the student-athlete the support necessary for success in the future. The plan will be approved by the athletic committee along with the athletic director and will be put into place immediately upon approval. The student-athlete must successfully fulfill the plan in order to be considered for reinstatement for RTHS athletics after the suspension for a period of 1 calendar year. Once the plan has been successfully completed, the athletic director and athletic committee will determine if the student-athlete can be reinstated for athletics at RTHS. The athletic committee's decision is final on third and subsequent violations and no appeal can be made to other levels of administration including the Board of Education for District #193.

In the unfortunate event that a student incurs two violations in the same season, the consequences will run consecutively rather than concurrently.

Judicial or Law Enforcement records

If a violation is discovered by receipt of information from judicial or law enforcement records and the student has not admitted or reported the offense to the athletic director, coach or administrator, the athlete can be suspended from participation for one calendar year from the discovery of the violation by the school. This is true of a first or second violation.

Appeal Process – For 1st and 2nd Offenses Only

In the event that a student feels that they have not received a fair and impartial hearing or judgment or has received a penalty that is excessive or is not within the guidelines of the Athletic Code, they may use the following appeal process:

Level I

A written description of the basis for appeal and remedy sought shall be presented to the principal. This description must be presented within one week of the assessment of penalties for the violation at issue. The principal shall investigate the details of the issue and respond in writing to the request for appeal within two weeks.

Level II

If the student-athlete filing the appeal is not satisfied with the disposition of the issue at hand, they may present a written description of the basis for a Level II appeal to the Superintendent. After investigating the facts surrounding the incident the Superintendent shall respond in writing within two weeks from the date of the Level II appeal.

Level III

If the student-athlete is not satisfied with the response from the Superintendent, a written appeal may be filed with the District #193 Board of Education. Such appeal will be placed on the agenda of the next regularly scheduled Board meeting. The student-athlete may be invited to address the board in a closed session. Decisions of the Board shall be considered final.

Absence from School on Day of Activity

An athlete who is absent from school after noon on the day of an activity is ineligible for any activity on that day unless the absence has been approved in writing by the athletic director. Exceptions may be made by the coach: 1) for a medical absence pre-arranged with the coach or 2) for a death in the athlete's family. An athlete who has one or more trancies or who has been suspended from school may be suspended from participation in athletic activities by administration.

Eligibility

To retain athletic eligibility, an athlete must have passed 7 classes of academic course work in the semester preceding his or her athletic eligibility and must have passed 7 classes of academic course work in the week preceding his or her athletic eligibility.

Definition of a Contest

A contest is defined as the date the event takes place not the number of games. For example, if a team competes in a Saturday tournament with three matches, that will count as one contest. A double header will count as one contest. A holiday tournament in which a team plays multiple games in a day will count as one contest.

STUDENT ATHLETE CONCUSSIONS AND HEAD INJURIES

Student athletes must comply with Illinois' Youth Sports Concussion Safety Act and all protocols, policies and bylaws of the Illinois High School Association before being allowed to participate in any athletic activity, including practice or competition.

A student who was removed from practice or competition because of a suspected concussion shall be allowed to return only after all statutory prerequisites are completed, including without limitation, the School District's return-to-play and return-to-learn protocols.
